Rifle / Pistol Equipment

Equipment Control will be conducted according to ISSF Rules using approved, calibrated instruments. Pre-competition testing is not mandatory, however, athletes are responsible for competing with legal equipment and clothing. All athletes are urged to submit any doubtful equipment and clothing to Equipment Control for checking before the competition. All athletes are subject to being selected for random post-competition testing and will be disqualified if their equipment or clothing is not legal according to ISSF Rules.

Rifle Clothing

All rifle athletes must have ISSF seals with serial numbers on their jackets and trousers. Any rifle jackets or trousers that do not have ISSF seals must be submitted to Equipment Control for inspection and the affixing of a seal before the athlete's first competition. Jackets and trousers that were previously inspected and have an ISSF seal continue to be valid except that athletes with more than one jacket or trousers must report to Equipment Control before their first competition to confirm which jacket and which trousers they will use. All other seal numbers for that athlete will be cancelled. Athletes that wish to replace a registered jacket or trousers with a new clothing item must bring that item to Equipment Control for inspection and a new seal. Previous seals will then be cancelled. Rifle athletes can have only one active jacket and trousers at any time.

Rifle Clothing Post-Competition Stiffness Testing

If one panel of a rifle jacket or trousers tests 2.9 or lower, the stiffness device must be recalibrated and the panel must be retested. If it fails again, but all other panels pass, the athlete will not be disqualified, but a written warning must be given to the athlete and the ISSF seal must be cut off. The athlete can continue using this clothing for that day in that event. If two or more panels fail, the athlete must be disqualified (DSQ).

Air or CO₂ Cylinders

It is the athlete's responsibility to ensure that any air or CO₂ cylinder is still within its validity date. This may be checked by Equipment Control.

Shotgun Equipment

All skeet athletes must have ISSF seals with serial numbers on their marker tapes. Any shooting vests that do not have ISSF seals on the marker tapes must be submitted to Equipment Control for inspection and the affixing of a seal before the competition.

Equipment Control will be conducted according to ISSF Rules using approved, calibrated instruments. Pre-competition testing is not mandatory, however, athletes are responsible for competing with legal equipment and clothing. All athletes are urged to submit any doubtful equipment and clothing to Equipment Control or the Shotgun Jury for checking before the competition. All athletes are subject to being selected for random testing during the competition. Athletes found to be in violation of the rules for guns or skeet marker tapes will be disqualified.

Shotgun Cartridge Controls

During Qualification, athletes whose cartridges are to be tested are selected by a computer draw. Between 10% and 18% of the athletes participating in an event will be selected for cartridge testing. Two (2) plus four (4) cartridges will be selected from each athlete and placed in separate labeled envelopes. The two (2) cartridges must be tested, first. If both cartridges weigh 24.50 g or below, no further action will be taken. If one (1) or both cartridges weigh more than 24.50g, then the four (4) cartridges in the second envelope must be tested. If the average of the six (6) cartridges weigh more than 24.50 g, then the athlete must be disqualified (DSQ).

During Finals, all six (6) finalists must be tested using the same procedure. The Finalists or their Coaches/Officials must bring, as early as possible, but not later than 30 minutes before the scheduled start of the Final (Reporting Time), all the cartridges that will be used during the Finals and place them in separate Cartridge Control Boxes on the Finals field of play. The Finalists must report at least 15 minutes before the start of the Final. The Equipment Control Jury will take the necessary samples from the boxes, and the boxes will be sealed. The boxes must be left under the supervision of Equipment Control Jury Member on the FOP. Once ammunition is placed in the box and sealed, only the Equipment Control Jury or the Finalist can remove ammunition from the box. No additional cartridges may be brought to a Finalist during Finals. All cartridge controls must be completed before the start of the Presentation of the Finalists. Any disqualified (DSQ) athlete will not be allowed to participate in the Final (There will be no elimination for 6th place; the first elimination will be for 5th place).

Colored Wads

Only transparent or translucent wads with no color may be used.

7. Immigration and Customs Requirements

Visa

Anyone who requires an Entrance Visa into South Korea should contact a Korean Embassy or Consulate at your location to obtain the Visa prior to arrival at South Korea.

No arrival Visas are available in South Korea.

ISSF Member Federations that require an Official Invitation Letter to apply for a Visa, please fill in the enclosed Visa Support Form (Annex 7) and return it together with scanned copies of valid passports for all visa applicants to the Organizing Committee as soon as possible, but not later than **1 AUG 2018**. This form must be typed clearly readable on PC. The Invitation Letter will be made in Korean version and emailed to the Korean Embassy or Consulate for the federation concerned, unless the Organizing Committee receives special information.

If an express service is requested, the service will be charged to the federation and must be paid to the Organizing Committee upon arrival.

Neither the Organizing Committee nor Korea Shooting Federation has any influence on the Korean Embassies and will only provide Invitations for the ISSF World Championship.

Custom Formalities / Temporary Import of Firearms

ISSF Member Federations must declare all firearms brought into Korea for the ISSF World Championship in advance. The federation has to fill in the Firearm and Ammunition Form (Annex 8) clearly and return it with the scanned copies of the valid passport of each athlete to the Organizing Committee by email till **15 JUL 2018**. Please make sure that the firearm document should be sent to the Organizing Committee not later than Thirty (30) days before the arrival in case of the arrival earlier than the official arrival day (31 AUG 2018).

Type in PC ONLY! No Handwriting or Fax Transmission will be accepted.

The charge for a firearms permit – for all firearms – is **EUR 30.00 per federation**. This has to be wired to the Organizing Committee account in advance or paid to the Organizing Committee at the Changwon International Shooting Range by **14:00 on 1 SEP 2018**.

The Official Airports for customs clearance of firearms in South Korea are two (2) international airports: **Busan-Gimhae (PUS)** and **Seoul-Incheon (ICN)**.

The Korean government requests that the customs clearance for all luggage and firearms must be made at the first arrival international airport of Korean National Territory on arrival, and at the last airport on departure. International airlines fly from several Asian nations directly to PUS, whereas most airline connections from other continents are through ICN.

Delegations travelling through ICN may transfer to an international flight to PUS (see b) below), or move to the **Seoul-Gimpo Domestic Airport (GMP)** by land to take a domestic flight to PUS. It takes about 45 min from ICN to GMP by bus. Please consider connection time (min. four hours) if you go from ICN to GMP since the custom clearance for all luggage and firearms must be made at **ICN**.

You can fly to the destination PUS via the following air routes from overseas.

- a) → Busan (**PUS*****)
- b) → Incheon (ICN) → Busan (**PUS*****)
- c) → Incheon (**ICN*****) → Seoul (GMP) → Busan (PUS)

(*******) is the international airport requiring custom clearance for firearms.

The Organizing Committee staff will assist your firearms clearance in the customs channel at PUS or ICN.

All athletes must go directly to the customs after baggage claim at arrival to verify that the serial numbers of their own firearms are identical with the ones declared in advance.

Please note that any unverified firearm will be kept in the custody of customs unless an athlete verifies it to the customs.

When the delegation transfers to a flight for **PUS** at **ICN**, the custom clearance of all firearms will be made at **PUS**.

However, those who arrive at **ICN** with firearms and then go through **GMP** to reach **PUS**, must complete their firearms clearance at **ICN** and then hand over all firearms including air guns and air pellets to the Organizing Committee staff at **ICN**.

Please do NOT fly to GMP directly with any firearm.
